## PROFESSIONAL SUMMARY

Dedicated Developer with expertise in React Native and the MERN stack. Proven track record in designing scalable APIs, managing databases efficiently, and building secure mobile and server-side applications. Committed to delivering high-quality, end-to-end solutions that bridge seamless frontend experiences with robust backend architecture.

## EXPERIENCE

### React Native Developer

Feb 2025 – Feb 2026

HyperDev

Remote

- Contributed to the development of production-level applications focusing on mobile and web integration.
- Built user authentication system with JWT and role-based access control.
- Integrated third-party APIs and implemented CRUD operations with MongoDB.
- Improved UI performance and reduced load time by optimizing components.

## PROJECTS

### Easy To Get App

Feb 2026

React Native, Node.js, Express, MongoDB, Cloudinary

- Developed a dual-purpose platform connecting daily-wage workers (Labor Chowk model) with local clients while integrating a managed retail product section.
- Engineered a secure administrative dashboard with exclusive permissions, ensuring only the primary admin (self) can add or manage product listings.
- Built a service booking workflow for various labor categories with real-time availability tracking.
- Designed a streamlined product catalog with category filtering and secure order processing for users.

### Ride Booking App

Sept 2025

React Native, NativeWind, WebSocket, MongoDB, Express, Node.js

- Developed a full-stack ride booking mobile application enabling seamless rider-driver interaction.
- Implemented real-time ride requests, driver tracking, and fare estimation.
- Built secure authentication, ride history, and payment gateway modules.

### Radhe Laptops (radhelaptops.com)

Dec 2025

React.js, Redux Toolkit, Tailwind CSS, Node.js, Express.js, MongoDB, Razorpay

- Developed a responsive full-stack e-commerce web application with global state management.
- Implemented Redux Toolkit for authentication, products, cart, and checkout flow.
- Built RESTful APIs and integrated JWT-based authentication for secure user access.

## SKILLS

**Frontend:** React.js, Next.js, Tailwind CSS, HTML5, CSS3

**Backend:** Node.js, Express.js

**Database:** MongoDB, PostgreSQL

**Mobile:** React Native, NativeWind  
**Languages:** JavaScript, Java, C  
**Tools:** Git, GitHub, Firebase, Appwrite, AWS

## EDUCATION

---

**Satyug Darshan Institute Of Engineering And Technology**

**2022 – 2026**

Bachelor's of Technology in Computer Science And Engineering

**Relevant Coursework:** C, Operating System, DBMS, OOPS, Computer Network, Software Engineering, Data Structure and Algorithm.

## CERTIFICATIONS & ACHIEVEMENTS

---

- Solved over 100+ questions on Leetcode.
- Generative AI Arcade Game, GCC Foundation.
- ISRO Bhartiya Antariksh Hackathon 2025.
- AWS Academy Cloud Foundation.
